

CHALLENGE 100

CHALLENGE 100 IS THE PERFECT HIGH ENERGY, SUPER COMPETITIVE TEAM BUILDING ACTIVITY. WITH 100 VARIED CHALLENGES FOR TEAMS TO COMPLETE AGAINST THE CLOCK, THERE IS GUARANTEED TO BE SOMETHING FOR EVERYONE.

With a plethora of equipment set up around the room and the initial briefing complete, each team will be provided with an event pack listing the 100 different and varied challenges available for them to tackle.

The challenges that participants will face are fun and varied – some might be 'skills based' whereas others may be more physical or cryptic in nature. To earn eternal glory, teams will need to utilise their different skills and abilities to complete the maximum number of challenges.

To keep teams on their toes, each challenge is given a different 'points value' depending upon how easy or hard it is to complete. During the activity, ever vigilant scoring marshals will be patrolling the room and judging the team's efforts – only when they consider a challenge to be completed successfully will the team be awarded the corresponding fun money!

Team challenges include puzzle solving, boomwhacking, bell ringing, balloon modelling, upside down colouring in, trigonometry solving, cup stacking, beer mat flipping, giant dice building, mystery solving, etiquette relay racing, hand shadow making, jellybean conversion scoring, blindfolded elephant drawing, domino rallying, sailor knot-tying, card pyramid building, play doh modelling, plate spinning, juggling, hula hooping, Lego tower building and LOTS more. To say there's "something for everyone" would be an understatement!

With so many challenges to choose from teams can opt for their favourites while avoiding anything they don't fancy. Teams will certainly be fully challenged with creative, technical, mental, sensory, problem solving, general knowledge and physical team games and activities and who knows what hidden talents will be revealed?

On completion of each team challenge, teams are rewarded with fun money. Activities are categorised in difficulty ratings and the more difficult the activity, the more fun money is awarded. So, teams will need to decide on their strategy of quality versus quantity. Should they attempt to complete as many of the smaller team games as possible and earn their money gradually or spend more time working on the more challenging team building activities for a bigger pay out?
