

SPACE SURVIVAL

ACTIVITY OPTION

SPACE SURVIVAL

While on an planetary exploration mission, you and your team find yourselves caught in a sudden geomagnetic storm! Your spacecraft seems to have crash-landed on Earth, but all is not what it appears to be...

With the help of your craft's AI virtual assistant, you must navigate around your chosen location to find and collect the scattered parts of your spacecraft. As you complete a variety of interactive challenges throughout the game, you'll need to use the parts you've collected to repair your craft's dashboard. It's vital that you keep your life points as high as possible as you navigate this treacherous terrain!

It's all systems go as you compete with other teams to keep your life points up, collect items and get back to your home planet. Do you have what it takes to survive the perils of deep space?

THE AIM OF THE GAME

One of our Remote Facilitators will kickstart your 'out of this world' mission with a virtual briefing, giving you as much information about your expedition as possible!

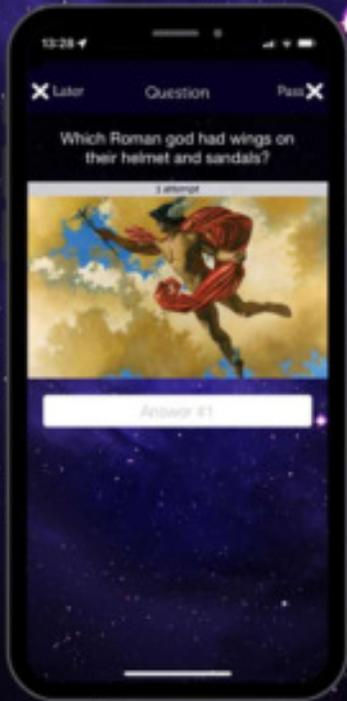

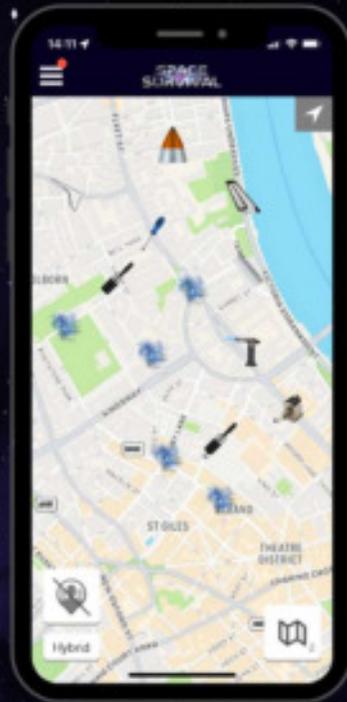

Working in teams of 4-6 players, you and your team will set off to navigate your chosen location using your own smartphone devices. As you explore the interactive GPS map, it's a race against time to locate and collect the missing parts of your spacecraft. But beware of curveballs along the way - this is an unfamiliar planet after all!

As you locate each part, you'll discover interactive challenges waiting for you, including creative photos and videos and a variety of puzzles. Each task you complete will earn you 'life points and unlock a part needed to repair your spacecraft. All parts found will be added to your 'Collected Items' area within the app. Each player will be able to track their progress through the live scoreboard and toggle to the Game Screen which displays the spacecraft dashboard.

The aim of the game is to collect as many missing parts as possible before time runs out! The winning team will be the ultimate space survivors, having repaired their spacecraft and kept their life points in the positive zone!

RUNNING TIME:	The ideal length of time for this activity is 2 hours.
MIN/MAX GROUP SIZE:	Suitable for 10 – 500 participants.
PEOPLE PER TEAM:	We would recommend 5 participants per team.
WHAT'S INCLUDED:	<ul style="list-style-type: none">✓ Fully hosted event✓ A remote facilitator to run your activity✓ Interactive gameplay app✓ Pre-event planning and management

WHO WILL RUN MY EVENT?

This activity is one of our Remote Hosted events and will be run from start to finish by one of our experienced remote facilitators via video link (Zoom is our preference but we can use other platforms too).

For this event, we will have one event host/facilitator for every 50 participants. They will remain on your call for the duration of the event to make sure everything runs smoothly and answer any questions participants may have.

HOW DOES THE ACTIVITY WORK?

This 'app-based' team building activity can be run in virtual or hybrid formats depending on your circumstances and situation.

FACE TO FACE: The face to face option allows everyone to enjoy a fun, engaging, safe, and COVID friendly team building activity, 'face to face' with their colleagues rather than via Zoom.

Your event facilitator will still deliver a high energy briefing and results session via Zoom, manage the teams, and be available throughout your activity to ensure everything runs smoothly.

WHAT DO I NEED TO DO BEFORE THE EVENT?

Before your event we will send you a detailed 'event details sheet' with all of the information you and your teammates will need. This will include the confirmed date and time of your event, the name of your event host, the Zoom link that will be needed to access the call, and details of how to download the gameplay app. All you need to do is send this information sheet to all those taking part, and let us look after the rest!

WHAT HAPPENS ON THE DAY OF MY EVENT?

On the day itself, everyone will be welcomed to the event by your event host as soon as they join the Zoom call. Once everyone has arrived, your event host will explain exactly what will happen during your activity and answer any initial questions.
