

# TERRARIUM MASTERCLASS

DURING THIS RELAXING AND THOROUGHLY ENJOYABLE ACTIVITY, GUESTS CAN BRING A BIT OF NATURE INDOORS BY CREATING A 'JARDEN' – A LIVING GARDEN IN A JAR!

Your terrarium masterclass will start with a demonstration from one of the terrarium experts who will also share some fascinating facts about the history of terrariums and how they work. Once this is over, it's time for guests to get their hands dirty!

Under the right conditions, a perfectly balanced, closed terrarium could last a lifetime, and should never need watering, making them an eco-friendly alternative to houseplants or cut flowers (The longest known terrarium has lasted on its own for 53 years!).

Guests will be guided through each step teaching guests various planting techniques, how to build each layer and how each layer contributes to the overall wellbeing of this self-sustaining eco-system.

We'll also give the playful guests among the group ideas on how to embellish their terrariums with figures such as animals, characters and dinosaurs to create their own 'gardener's world'!

Not only do terrariums look stunning but they are also wonderfully low maintenance. We'll give advice on how to care for them so that even the self-confessed plant killers can get theirs to thrive and eventually take care of themselves!

At the end of the activity, guests will have a beautiful handmade terrarium to take home or back to the office to bring a bit of nature indoors. As if this wasn't enough, guests will also have the knowledge and skills to make more in the future.

#### RUNNING TIME

The ideal length of time for this activity is 1 ½ -2 hours.

#### MIN/MAX GROUP SIZE

Suitable for 10 - 100 participants

#### PEOPLE PER TEAM

N/A - Guests work on their own individual project

#### ACTIVITY COST

Please contact a member of our team for a quote.

#### WHAT'S INCLUDED
